SERIES CODING FOR FLUSH-MOUNTED SENSORS and TFT DISPLAYS

	STANDARD PLATE		LOW-PROFILE PLATE
S01	Vimar Plana Silver		
S02	Vimar Plana White		
S03	Vimar Idea White		
S04	Vimar Idea Grey (Anthracite)		
S05	Vimar Eikon White	S05E	Vimar Eikon White EVO
S06	Vimar Eikon Black	S06E	Vimar Eikon Black EVO
S07	Vimar Eikon Next	S07E	Vimar Eikon Next EVO
S50	Vimar Arké White	S50F	Vimar Arké White FIT
S51	Vimar Arké Black (Anthratice)	S51F	Vimar Arké Black FIT
S52	Vimar Arké Metal	S52F	Vimar Arké Metal FIT
S57	Vimar LINEA White		
S58	Vimar LINEA Black		
S59	Vimar LINEA Hemp		
S10	BTicino International Black / Living Light Black (anthracite)	S10A	BTicino International Black AIR / Living Light Black (anthracite)
S11	BTicino Living Light White	S11A	BTicino Living Light White AIR
S12	BTicino Axolute White	S12A	BTicino Axolute White AIR
S13	BTicino Axolute Black	S13A	BTicino Axolute Black AIR
S14	BTicino Matix White		
S15	BTicino Living Light Tech	S15A	BTicino Living Light Tech AIR
S16	BTicino Axolute Silver	S16A	BTicino Axolute Silver AIR
S19	BTicino Matix Ivory		
S48	BTicino MATIX GO White		
S49	BTicino MATIX GO Grey		
S20	Gewiss System White		
S21	*Gewiss Playbus Black (phase out from the producer)*		
S22	Gewiss Chorus White shiny		
S23	Gewiss Chorus Satin Black		
S24	Gewiss chorus Titanium shiny		
S25	Gewiss System Black		
S26	Gewiss Chorus Natural beige		
S27	Gewiss Chorus Satin White		
S30	ABB Mylos White		
S31	ABB MYLOS Black		
S32	ABB Chiara White		
S40	Legrand Vela Black		
S41	Legrand Vela White		
S61	AVE Life Black		
S62	AVE Domus White system 44		
S63	AVE system 45 White neutral shiny **available for TP and TH		

SERIES CODING FOR FLUSH-MOUNTED SENSORS and TFT DISPLAYS

	STANDARD PLATE		LOW-PROFILE PLATE
S64	AVE Tekla Black (matte) system 44		
S65	AVE ALLUMIA Grey Silver		
S66	AVE life Black (shiny) system 44		
S68	AVE domus class Ivory system 44		
S69	AVE ALLUMIA Black		
S70	URMET Nea Aluminium Karbon - Dark Grey		
S71	URMET Nea Satin Aluminium - Light Grey		
S72	URMET Nea White matte		
S73	URMET Nea Anthracite - Black		
S74	URMET Nea Icy White shiny		
S77	Bticino living NOW White*		
S78	Bticino living NOW Black*		
S79	Bticino living NOW Sand*		
S80	In 80x120 box ** available only for TP, TH and TFT		
S101	JUNG LS Snow White ** available only for TP, TH, THL (NO TFT)		
S102	JUNG LS Graphite Black ** available only for TP, TH, THL (NO TFT)		
S103	JUNG LS white ** available only for TP, TH, THL (NO TFT)		
S104	JUNG LS Light Grey ** available only for TP, TH, THL (NO TFT)

NOTES ON COVER PLATES WITH LOW-PROFILE PLATES Vimar EVO and BTicino Air

Some manufacturers (Vimar with the "EVO" series, BTicino with the "AIR" series) offer low-profile plates; the sensor installed in the plates are the same as those installed in "standard" plates, so there is no difference in sensor selection between the "standard" and "low-profile" code. Therefore, it is possible to order either code S05 Vimar Eikon White or code S05E (Vimar Eikon White EVO) interchangeably: in both cases, code S05 (Vimar Eikon White) will be provided, which can also be installed on the low-profile plate.

However, in the case of **REG-TFT**, the construction differs between the standard plates and the low-profile plate, and it is therefore essential to specify the correct code (standard or low-profile plate) to receive the correct product for installation (for example, REG-TFT-S11 BTicino Living Light White and REG-TFT-S11A BTicino Livin Light White AIR are two different items!).

To avoid errors, we suggest always ordering everything, sensors and TFT, with the complete code (as used for REG-TFT, which also accounts for the type op plate). During order confirmation, we will indicate the appropriate code for the sensors. (Examples: by ordering aREF-TFT-S11A and two REG-THL-S11A sensors, the order confirmation will show one REG-TFT-S11A and two REG-THL-S11 sensors).

* **for the TFT in the BTICINO NOW series, use code REG-TFT-NOW-SXX** as it has a different cost and process and comes with a plate included.
